

**Rolfsen-Gottenberg Nuptials  
Held December 19th at Calgary**

Southminster United Church in Lethbridge was the scene of a pretty, though quiet wedding on Saturday, December 19th, when Katharine Lucretia, only daughter of Mr. and Mrs. Fred Gottenberg, of Champion became the bride of H. Dean Rolfsen, son of Mrs. Clara Rolfsen, of Raymond. The Rev. Mutchmore was the officiating minister.

The bride, charming in an afternoon dress of ice blue crepe with black accessories, and wearing a corsage of sweetheart roses and white chrysanthemums entered the church on the arm of her father, who gave her in marriage. The bridesmaid, Miss Evelyn Sletto, cousin of the bride wore a tea rose crepe afternoon dress with black accessories and a corsage of ivory roses.

Brownie Rolfsen, brother of the groom acted as best man.

Martin Gottenberg, brother of the bride, and Theodore Holm acted as ushers.

During the signing of the register Misses Mavis Moffatt and Marion Tuff, accompanied by Mr. Moore, sang "Because."

Mother of the bride wore an afternoon dress of Queen's blue crepe and a corsage of pink and

white carnations, while the mother of the groom wore an afternoon dress of black and a corsage of red roses.

A reception followed the wedding in the banquet room of the Y. M. C. A. The table, centred with a three tier wedding cake was beautifully decorated with tall pink tapers and mauve and white chrysanthemums.

J. O. Bell proposed the toast to the bride and the groom responded.

The couple left for a honeymoon in Calgary. The bride chose a soft rose wool dress for traveling.

The bride is a graduate in House Economics from the University of Alberta.

The groom is a graduate in science from the Brigham Young University, Utah.

They will reside in Raymond.

In Champion morning only, Tuesday, Jan. 12, at Drug Store. Consult last four days each week at Calgary office.

**LETTERS FROM THE BOYS IN  
UNIFORM**

—v—

Dear Stan:

Due to the fact that my address is permanently changed and also because I should like to wish you and all the people of Champion district the best of everything for this Christmas and the coming year—well here is the letter.

I have been kicked around something terrible in this war (ironically) having been shifted without mercy from one part of the best part of Ontario to the other—for the past two years and eight months. However, if they think I am doing my bit here at least I know it's my best. Now I am an inspector in a factory, a job which is very interesting and equally as constructive. So you can take from this that I am doing alright, but safely.

Time is teaching me to like the east, but I am sure a much shorter time is required to learn to feel for the west as I do and always shall.

Sincerely,

S. D. Patterson.

**Editorials**

1942-43

Looking back over the past year the most outstanding thing that comes to mind is the tremendous change in our way of living. We have seen alterations and changes affect most aspects of our daily life. Yet these changes have been accepted in most part by the people without any argument or reserve. Some of the changes have been necessitated by the demands of war. Others have been forced into being by the greediness and smallness of some of our citizens who are out to make sure that what ever happens they, themselves will not go short. For them the good Canadian can feel only disgust.

We will have many battles to win, in this next year. Even with the approach of the victory, which so many of us are praying will be seen on the horizon during this year, we will experience more changes and restrictions in our normal way of life. We must accept these as part of our payment to Democracy, for we know that if we wish to live under Democracy we must, when she demands it, sacrifice for her.

Let our New Year resolution be: "To give all to our country that our country demands of us for Victory."

"V"

We are not wishing Adolf, Benito, or Togo any sort of tough luck for the New Year—they've done all the fixing on that themselves and there ain't anything in hell they can do to stop it.

**SIC TRANSIT GLORIA HARMONAE**

The people spoke—emphatically. They left no doubt in the mind of the Government or of their representative the Hon. Peter Dawson as to their opinion of the Enlarged Unit. Some of the people were under the impression that the government would lend an ear to their pleadings—that their representative would plead for them before the government. Whether or not the government even hesitated a moment to consider the plea of the ratepayers of the Municipal District of Harmony; whether or not the Hon. Peter Dawson intervened on their behalf, even if unsuccessfully, no one knows. For such is the manner of the Government of the province of Alberta that it does not seem to consider even an answer to the people necessary. No acknowledgement of receiving the wire sent the Minister of Municipal Affairs by the Municipality has been received. The Hon. Mr. Dawson has not considered it necessary to make any statement to his constituents regarding his efforts in the matter. Only one thing is known—Last rites for the Municipal District of Harmony are now being observed. Sic transit gloria Harmonae.

"V"

The Council of the Municipal District of Harmony can retire knowing they did their work well.

Mr. McDougall is survived by Mrs. McDougall, a daughter, Morag, one brother Charles, of Champion, and three brothers and one sister in Scotland.

## Land in North China

The average annual rainfall in Shansi province, North China, varies from 14 to 21 inches. Some districts, therefore, have slightly more rainfall than Winnipeg and others about the same as central Saskatchewan. It is an agricultural province, and has been for some 4,000 years. There are about 181 persons per square mile. Surely we can learn some lessons from them.

They have preserved their soils by preventing erosion. This has been largely achieved by very skilful tillage methods developed through generations of experience and, also, by terracing slopes and hillsides. Wheat, oats, cotton, millet and potatoes are the leading crops.

One of the chief factors in the maintenance of fertility has been manure. Every possible scrap of animal excreta, including man's, is worked into the soil.

We have yet to learn that farm-yard manure is one of our greatest potential assets. Most of it is wasted. It will certainly play an important part in any soil conservation programme we may undertake, and we should be using it now.

Farmyard manure should be spread on the land while fresh and preferably on land to be fallowed the following summer. If it must be piled, the piles should be high, compact and flat topped.

Some day we may realize the agricultural value of town and city sewage. The chief difficulty in its use has been the large volume of water. At least two towns in England have overcome this by "composting" sewage with other organic wastes. The resulting fertilizer sells for \$2.50 per ton, and the demand greatly exceeds the supply.

Coupons for butter, like those for Sugar, Coffee and Tea (the red and green coupons) must be detached by, or in the presence of any seller of butter or his employee. If desired, consumers may lodge their

butter coupon sheets with their retailers, so that the latter may detach the required coupons when delivering.

**Special Notice to Retailers**

On and after December 28, retailers must establish their right to purchase new supplies of butter from their suppliers by turning over to the supplier currently valid ration coupons equivalent to the poundage of butter ordered from the suppliers.
